493 HALL OF ADMINISTRATION
LOS ANGELES, CALIFORNIA 90012

JON W. FULLINWIDER
CHIEF INFORMATION OFFICER

TELEPHONE: (213) 974-2008
FACSIMILE: (213) 633-4733

May 6, 2002

To: Raoul Freeman, Chairman
Information System Commission

From: Jon W. Fullinwider
Chief Information Officer

Subject: **ENTERPRISE RESOURCE PLANNING**

Attached is a copy of our latest report to the Board of Supervisors on the status of the County's Enterprise Resource Planning (ERP) initiative, known as the Los Angeles County Administrative System (LACAS)

Five prospective vendors have submitted proposals in response to the LACAS RFP:

Implementer

Accenture
*AMS
CSC
IBM
*KPMG

Software

PeopleSoft
AMS Advantage
Oracle
SAP
Oracle

*The AMS and KPMG/Oracle proposals have been rejected as non-responsive.

On May 9th, the LACAS Executive Management Committee will make the selection of two finalists for vendor software demonstrations. We have scheduled an introductory meeting at the beginning of the demonstrations on Monday, May 20th and Monday, June 3rd for the final selected vendors to provide an overview to executive management on their company, general description of their product, their proposed scope for the LACAS project, and their plans for ongoing support of the LACAS project.

I am inviting you and the members of your Commission to attend the introductory briefing from the selected vendor finalists at their scheduled software demonstrations,

Raoul Freeman

and any other demonstration modules that you may wish to see. We will forward a schedule of module presentations to you by the end of the week. The demonstrations will start at 9:00 a.m. at Health Services' Ranch Los Amigos facility at 7601 E. Imperial Highway in Downey, in the first floor conference room located in the Rancho Los Amigo's Support Services Annex building. Free parking is available in the adjacent parking structure. I would encourage you and your members to attend the opening presentations, as this is an important phase in the alignment of the County's enterprise-wide business and technical initiatives to bring its business practices and information systems in line with the County's strategic direction to implement an integrated administrative information system. Implementation of LACAS will change the way the County of Los Angeles does business with its stakeholders and constituents, and fundamentally change the nature of the operating culture for the benefit of management, staff and constituents.

I look forward to seeing you and your Commission members at the opening of the demonstrations.
